RECENT EVENTS

LAST WEEK

Gaye Eyre - Bowen Therapy

Spoke about facilitating healing of the various body systems through creating change to the connective tissue and fascia of the body. (Stimulating tissue between the muscle and skin)

Bi Weekly Meetings

Please keep an eye on the dates of the meetings so you don't miss any.

Murphy's Travel Laws

1. No flight ever leaves on time unless you are running late and need the delay to make the flight.
2. If you are running late for a flight, it will depart from the farthest gate within the terminal.
3. If you arrive very early for a flight, it inevitably will be delayed.
4. Flights never leave from Gate #1 at any terminal in the world.
5. If you must work on your flight, you will experience turbulence as soon as you touch pen to paper.
6. If you are assigned a middle seat, you can determine who has the seats on the aisle and the window while you are still in the boarding area. Just look for the two largest passengers.
7. Only passengers seated in window seats ever have to get up to go to the lavatory.
8. The crying baby on board your flight is always seated next to you.
9. The best-looking woman on your flight is never seated next to you.
10. The less carry-on luggage space available on an aircraft, the more carry-on luggage passengers will bring aboard.

Heard on a public bus

Heard on a public transportation vehicle in Orlando.

"When you exit the bus, please be sure to lower your head and watch your step."

"If you miss your step and hit your head, please lower your voice and watch your language. Thank you."
